**SHEPHERD OF THE HILLS
CHRISTIAN SCHOOL**

2009-2010

**SPECIAL GIFT
OPPORTUNITIES**

In this brochure are opportunities for you to give a special gift to our school in praise and thanksgiving to God for His blessings to you! This may be in honor of a birthday, anniversary, graduation, special accomplishment, or just to thank the Lord for the school's ministry.

PROCEDURE

SELECT an item from the enclosed teacher wish list of items
COMPLETE the Gifts Pledge Form with the item number, name and amount pledged for the desired item.
RETURN the pledge form and donation in an envelope to the office. Please make checks payable to SOTHCS.

The school will order the pledged item and our children and teachers are very happy to have some new items to help them with their learning and teaching.

Thank you for your support!

Rather than individual Classroom Wish Lists, this year we have the opportunity to help furnish the remaining Day School classrooms with Smart Boards.

Our way of planning for tomorrow today!

SMART Board™ interactive whiteboard

Succeed with active learning

The SMART Board™ interactive whiteboard has a large, interactive screen on which you and your students can explore a website, give a science presentation or take a virtual field trip. It helps you improve student motivation and performance by making inquiry-based learning a dynamic classroom experience.

The key to this experience is touch. You simply touch the surface to select menus and icons. To write notes, pick up a pen, and write with either the pen or your finger. You don't need batteries or special tools that fail or go missing.

The expansion slot allows you to add other SMART products to your board, such as the SystemOn button, so you can upgrade your hardware whenever you need to.

Reach all students

The SMART Board interactive whiteboard meets the needs of both visual and kinesthetic learners. Students see large, vibrant images and physically interact with material by moving letters, numbers, words and pictures with their fingers. Students with special needs can see, read and manipulate information more easily.

Give dynamic whole-class instruction

With the interactive whiteboard, you have powerful preparation tools and a central focus in class. Before you teach, you can plan lessons at your desktop. The whiteboarding software includes curriculum-specific clip art and templates that support math, literacy and science. You can build a lesson on graph paper, a music sheet or a map of Africa. In the class, you can involve students, add notes and save all information, every step of the way. With the SMART Board interactive whiteboard, you'll save time and increase success – for every one of your students

Check out www.smarttech.com/smartboard to learn more about this great product!
